

The Republic of Belarus

**BELARUSSIAN PRODUCTION AND TRADE CONCERN OF
TIMBER, WOODWORKING AND PULP AND PAPER
INDUSTRIES**

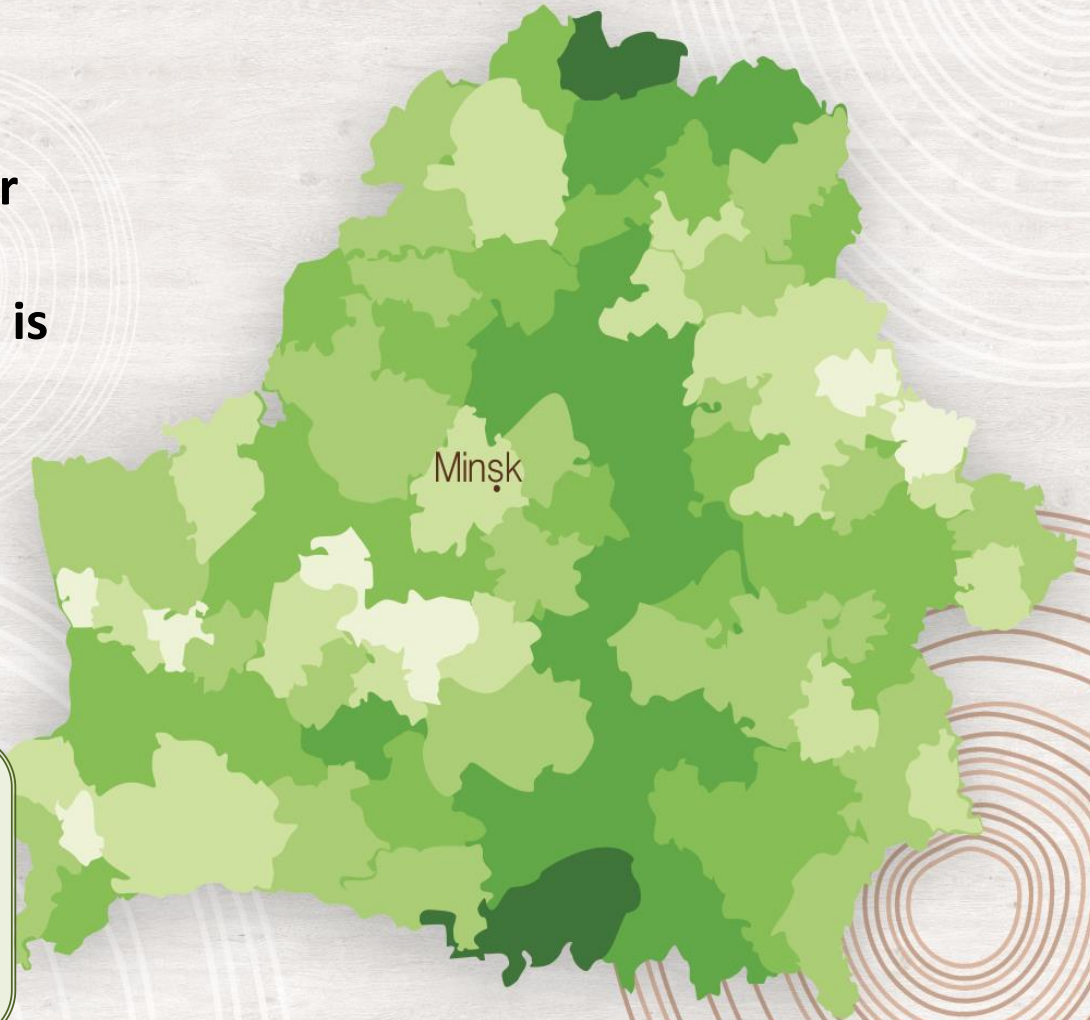

All forests in Belarus are the exclusive property of the state and are under its protection

Resources:

- Forest area - 9.6 million hectares
- The stock of standing timber is 1.8 billion cubic meters
- The annual growth of wood is more than 31 million cubic meters
- Forest cover - 39,8%
- More than 2.5 thousand timber companies

Volumes of wood harvesting:

2010 – 15,5 million cubic meters
2017 – 22,5 million cubic meters
2018 – 28,5 million cubic meters
2019 – 26,9 million cubic meters

The main guidelines for the development of the forest complex of Belarus

- ✓ sustainable forest management
- ✓ rational and multi-purpose use of forest resources
- ✓ the development of production facilities for deep processing of wood
- ✓ production of high value-added products

What is Concern “Bellesbumprom”

No1

The largest wood processor in the country

Provision of extensive processing of wood

More than 50 multi-professional industries

High-technology upgraded processing capacity

World manufacturers equipment

Production of more than 80 types of products

WOODWORKING

БЕ
